

Form TN

International Nomenclature Submission Form

File N°:

Date Rec'd:

Use this form to request the assignment of an International Nomenclature Cosmetic Ingredient (INCI) name for a trade name ingredient. INCI names were formerly known as CTFA Adopted Names. INCI names are recognized for ingredient labeling in the United States, the European Union, and many countries.

Please use a separate Form TN for each trade name material, and attach all forms to a cover letter. All entries must be typed or printed legibly. Any additional pages attached to the form must list the company name and trade name at the top. Please do not submit proprietary information.

Failure to follow Instructions may delay the assignment of an INCI name. Most INCI name assignments are completed within 6 months when sufficient information on the composition of a material is provided.

◆ *Mail Form & Documentation to:*

TRADE NAME:

SUGGESTED NOMENCLATURE:

(Use INCI names if applicable)

CHEMICAL STRUCTURE:

EMPIRICAL FORMULA:

CAS NUMBER:

EINECS NUMBER:

ELINCS NUMBER:

CHEMICAL SYNONYMS:

COMPOSITION STATEMENT:

(Please list components of mixtures
in descending order of predominance.)

MANUFACTURING METHOD:

(Include source, identity, and alkyl
chain lengths of starting materials.)

SOLVENTS or DILUENTS

(List in descending order of predominance)

Table of Ingredient Functions

Circle the applicable Functions of your trade name material.

The functions listed below are defined in CTFA's *International Cosmetic Ingredient Dictionary and Handbook*, Seventh Edition (1997), and the EU Inventory of Cosmetic Ingredients, Colipa, June 1, 1995.

ID Function

5 Abrasives
 10 Absorbents
 15 Antiacne Agents
 20 Anticaking Agents
 780 Anticaries Agents
 30 Antidandruff Agents
 35 Antifoaming Agents
 1004 Antifungal Agents
 790 Antimicrobial Agents
 60 Antioxidants
 70 Antiperspirant Agents
 80 Antistatic Agents
 100 Binders
 110 Buffering Agents
 115 Bulking Agents
 130 Chelating Agent
 140 Colorants-Cosmetic
 1005 Corn/Callus/Wart Removers
 160 Corrosion Inhibitors
 90 Cosmetic Astringents
 50 Cosmetic Biocides
 190 Denaturants
 200 Deodorant Agents
 210 Depilating Agents
 1014 Drug Astringents-Oral Health Care Drugs
 1015 Drug Astringents-External Analgesics
 1016 Drug Astringents-Skin Protectants
 320 Emulsion Stabilizers
 1006 Epilating Agents
 1017 Exfoliating Agents
 810 External Analgesics
 340 Film Formers
 350 Flavoring Agents
 390 Fragrance Components
 410 Hair Colorants/Hair Dyes
 720 Hair Conditioning Agents
 420 Hair Fixatives
 425 Hair-Waving/Straightening Agents

ID Function

730 Humectants
 1010 Lytic Agents
 1011 Nail Conditioning Agent
 510 Opacifying Agents
 740 Oral care Agents
 820 Oral Health Care Drugs
 513 Oxidizing Agents
 1007 Pesticides
 520 pH Adjusters
 540 Plasticizers
 560 Preservatives
 570 Propellants
 571 Reducing Agents
 1001 Skin Bleaching Agents
 573 Skin Conditioning - Emollient
 574 Skin Conditioning - Humectant
 572 Skin Conditioning - Miscellaneous
 575 Skin Conditioning - Occlusive
 580 Skin Protectants
 610 Solvents
 620 Sunscreen Agents/UV Filters
 1012 Surface Modifiers
 1013 Slip Modifiers
 250 Surfactants - Cleansing Agents
 260 Surfactants - Emulsifying Agents
 760 Surfactants - Foam Boosters
 690 Surfactants - Hydrotropes
 600 Surfactants - Solubilizing Agents
 640 Surfactants - Suspending Agents
 770 Suspending Agents - Nonsurfactant
 650 Ultraviolet Light Absorbers
 660 Viscosity Controlling Agents
 680 Viscosity Decreasing Agents
 670 Viscosity Increasing Agents-Aqueous
 750 Viscosity Increasing-Nonaqueous
